BOARD OF TRUSTEES ACTION ITEM

DATE: April 18, 2024

FROM: John Edmondson, Sr. Director of Procurement

Pat Giblin, Sr. Director of IT/Chief Information Officer

PROJECT NO.: 055-2024 FirstNet First Responder Communications Network

REQUEST: Contract Award

BACKGROUND

Metro has the need to communicate wirelessly with revenue service vehicles while in revenue service and support vehicles while en route to provide operator support. Wireless communications systems that carry commercial consumer traffic can be prone to disruptions and service outages.

BUSINESS PURPOSE

The State of Ohio issued a contract with AT&T for FirstNet communications services; only wireless communications network built exclusively for first responders. The network is an ecosystem of mission-centric apps, solutions, and dedicated connectivity that provide reliable communications with all Metro vehicles.

PROJECT FINANCING

The budget for the project is \$401,725, or \$80,345 per year for 5 years. Prior to 2024, Metro purchased service on a year-by-year basis starting in 2022. The annual cost of \$80,345 has remained static and the contract does not include annual price escalators or other adjustments.

The final project cost is \$401,725 and is flat to budget.

PROJECT PROCUREMENT

Based on the available market information, AT&T is the only vendor capable of providing a wireless data communications network for first responder organizations. Metro has been approved by AT&T as meeting the criteria for first responder-level communications, particularly during emergencies. As such, procurement staff determined that a Sole Source award was justified.

Based on the procurement methodology, no vendor outreach was conducted.

PROJECT DIVERSITY

Metro values diverse vendor participation in all contract awards and encourages all proposers to create subcontracting opportunities for disadvantaged businesses when responding to solicitations. However, diverse vendor participation is only required when using Federal financial assistance in third-party contracting. This project is financed using only local Metro funds.

The nature of the work does not require disciplines or specialties not provided by the prime contractors. As a result, subcontracting opportunities for this project are significantly limited. A required vendor diversity goal was not established for this award based on the use of local operating funds and the limited subcontracting opportunities.

RECOMMENDED BOARD ACTION

Staff recommends the Board of Trustees approve a resolution authorizing the CEO/General Manager/Secretary-Treasurer or the Senior Director of Procurement to execute Contract No. 055-2024-SS, on behalf of Metro with AT&T Mobility, with a not to exceed value of \$401,725.

April showers bring...Metro Hybrid buses!

New Hybrid buses roll out: In celebration of Earth Day, we launched 10 new Metro Hybrid-electric technology buses into service on Monday. These new buses reflect our continued strategy towards greener and more efficient transit options. We are also testing new technology on these hybrid-electric buses aimed at eliminating emissions in targeted zones where air quality concerns are heightened. Once

within these geotargeted areas, the buses transition to full electric mode, removing fuel use and resulting in zero emissions.

FTA comes to Cincinnati: Federal Transit Administration Acting Administrator Veronica

Vanderpool traveled from Washington, D.C. to hold a press conference in Cincinnati to announce updated regulations to the Public Transit Safety Plan, which focuses on increasing operator and passenger safety. FTA stated that Metro is a model for the country regarding how union members and management can work together to address these issues. Representatives from Amalgamated Transit Union (ATU) & American Federation of Labor-Congress of Industrial Organizations (AFL-CIO) National also participated in the press conference, along with ATU Local 627 President Frank Harper.

The Acting Administrator, FTA staff, Councilmen Reggie Harris and a representative from U.S. Senator Sherrod Brown's office joined us following the press conference for a technical tour of the BRT corridor to learn more about potential transit-oriented development and infrastructure needs along the routes.

System of the Year: We are honored to have been named the Transit System of the Year by the Ohio Department of Transportation, Division of Opportunity, Diversity & Inclusion. This award was received in recognition of our outstanding accomplishments in supplier diversity and the support of small and disadvantaged businesses in our community.

Marketing wins two ADDY Awards: We recently received two Addy Award from the American Advertising Association for our "Get Up & Go Metro" marketing campaign and for the partnership and design of the NAACP Cincinnati Chapter's "Your Voice is Your Vote" resource vehicle. Hats off to our Marketing & Communications team!

Biking & Busing: In recognition of "National Bike to Work Day" on May 17, any rider utilizing the bike racks on the front of our buses get to ride free that trip. Metro will also be participating in biking awareness activities across the county throughout May.

Thank you,

Darryl Haley
